

Dear Patient,

After 25 years as a partner at the Brannam Medical Centre, I am relinquishing my partnership at the practice at the end of July 2018. This means that those patients who have been registered with me will be transferred to Dr Amy Parkinson. Some of you will know Dr Parkinson as our fantastic registrar who has been with the practice for the last year.

It has been a great honour being a partner and being part of people's lives and I hope that in some ways I may have helped. I will still be working at the practice as a locum but will be around less frequently. I would like to do some Voluntary Service Overseas (VSO) which might see me in Africa for short periods.

I have loved my job at Brannam Medical Centre and wish you all well if I do not see you in the practice.

Kind regards.

Yours sincerely,

*Peter Taylor*
